What Vacuodermie® is exactly

An **innovative technique** of **cellular revitalization**, computer-assisted, safe, painless and comfortable.

Sliding on the treated skin surface, **transparent cups** reactivate cellular exchanges and revitalizes tissues from surface to deep within.

The Vacuodermie® visible effects

The cupping action produces a real **revitalization** of the cutaneous tissues.
Cells oxygenation and waste elimination are stimulated in a significant way.

The duration of the benefits then depends on a **saine way** of living (sports, balanced diet...)

The Vacuodermie® time in use

20 minutes or so needed for one facial care,
45 minutes for one body care.

Average frequency is 2 sessions per week.
From 10 to 15 sessions are required for efficient body care.

The Vacuodermie® safety and comfort

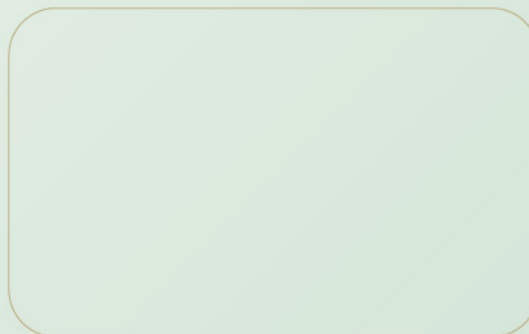

Our method takes advantages from high added value factors :

- computerized program management
- precise regulation of vacuum
- continuous visual and manual control by the operator

The wellness process is engaged...

Wellness

...dims scars and skin flaws

Rolls and skin flaws often result from scars.
Vacuodermie® enhances resorption of those types of edemas and ematomas.
Skin texture and homogeneity are then revealed.

Our patented technique, taken as a reference in the medical field, has quickly become a must in Esthetics and Beauty sector worldwide.

...reduces wrinkles and deep eye line

Skin ageing is mostly due to the combination of several factors :
facial skin flaws, water cells stagnation and excess toxins.

Vacuodermie® softens skin surface, activates waste elimination and improves the circulatory system.

The skin of face regains tone up and lasting rejuvenation.

...contributes to reduction of cellulite

A cellulitis case has 3 main causes :

- reduction of blood or lymphatic circulation
- increase of organic waste
- stagnation of water cells in tissue

Vacuodermie® operates a triple action to get fat resorption:

- stimulates blood circulation (venous)
- induces revitalization of the tissues
- improves body reshaping

Skin is then deeply detoxified, toned up and looks rejuvenated.
Sensation of revitalization and well-being drives patient to a better health estate.
Effects are durable on body reshaping and harmony.
